1. Welcome and Apologies

The Chairperson welcomed forum members to the meeting and introductions were made. There were no apologies to be noted.

2. Minutes of the Previous Meeting – 22.03.18

The minutes of the previous meeting were passed as an accurate record.

3. Understanding Stigma

DG delivered a presentation about understanding stigma. DG described stigma as when an individual is seen as being different, and are treated differently from the rest of society due to this. Stigma can be in many different forms and it can affect self-esteem. DG said it is hard to eliminate stigma and discrimination.

There was a conversation about stigmatising language with DG asking forum members for examples for people experiencing poverty; people who use alcohol and drugs; and people with mental health issues. It was recognised that use of such language is widespread and only through good practice can the use be reduced.

DG spoke about the appropriate terms that should be used, with many putting the person first and the issue affecting their lives as the secondary aspect. Examples of these are included in slide five of the [Understanding Stigma presentation](#) on the [CVS Falkirk](#) website.

In regards to [The Strategic Outcomes and Local Delivery Plan](#) (SOLD) Plan, reducing stigma is a key element across the four priorities and six outcomes of the plan, related to the focus of each of the priorities and outcomes.

Co-ordinating the work being done across the SOLD delivery groups to reduce stigma is currently being co-ordinated by the Delivery Co-ordinators and Evidence Support Group (DCG-ESG). This group brings together the co-ordinators of each of the SOLD priorities and outcomes to discuss cross-cutting issues, including stigma. DG is the third sector representative on the group.

MO stated that she works with people with convictions and terminology is always changing. It was recognised by forum members that this can be a challenge in many areas of work, but colleagues within their organisations helped them stay up-to-date.

For further information, please see the [Understanding Stigma presentation](#) on the [CVS Falkirk](#) website.

4. Falkirk Holiday Club Funding

DG informed the forum of the Falkirk Holiday Club funding as the Falkirk Council are trying to tackle child hunger over the school breaks, Falkirk Council have also put in an application form to get funding to do this for another three years and they are trying to get money extended to next year.

Falkirk Council CLD and Trussell Trust are making food parcels over the summer and including what people need. There are cooking classes being held for families receiving the boxes based around what is in the box and how to make the food in the box last seven – ten days.

Falkirk Community Trust are involved in doing summer programmes and are opening these to children from deprived backgrounds and they provided breakfast and lunch to the children, children helping themselves to the food, so no child is subject to being stigmatised. If there is any food left at the end of the day, staff often give this to the children to take home. The Trust staff have also provided specialist equipment to children if they haven't arrived properly prepared.
