

Forth Valley ADPs

Understanding & Supporting People with Alcohol-Related Brain Injury

Aim

This one day course provides an overview of the effects of alcohol-related brain damage and how to support those affected, including family members and carers. Discussion of the range of services that could be involved in supporting those affected and practical support that can be provided by non-medical services are key features of the course.

Learning Outcomes

By the end of the course, participants will be able to:

- Identify the causes of alcohol-related brain damage.
- Investigate the symptoms and stages of ARBD.
- Identify useful strategies when working with this client group.
- Investigate the local pathways for treatment and assessment of ARBD.

Date: 18 February 2021

Time: 9:15 am - 1:30 pm

Remote Session to be delivered via TEAMS.
