

What should be included in the Falkirk Plan?

Are there other priorities for communities?

Other priorities for communities is to ensure no one is left hungry, isolated and suffering from mental health

People need more money to live. Where they don't have enough money, they feel isolated. People need support and friendship.

driving forward inclusion , and stopping division

rebuilding after covid. Maintaining the projects that have been started to support communities.

Community facilities,Funding for local initiatives,Repairs to buildings,Better service access

Engage with people in the communities so that their voices are heard

Local Facilities in walking distance.Small startup business units.Joined-up travel.Community space (not a school or church) for parties, events, celebrations

Accessible play

have you had any additional thoughts from the last meeting which Falkirk Council Community Planning Team presented at?

I could not attend

We weren't advised to attend but Whoever let's us know

Come out to communities not us come to you. Work with community on a focussed project, e.g. fix community hall. Do stuff now, not talk endlessly

I was disappointed that they were attended by community groups and not just local residents

Affordable local Activities, CLD on the ground or fund local youth provision!
