

# Young parents, have your voice heard!

10.30 am  
08 September  
2021

**Are you aged 16-24?**

**Are you interested in discussing training and career options?**

We are giving young parents the opportunity to have their voices heard by hosting a group discussion.

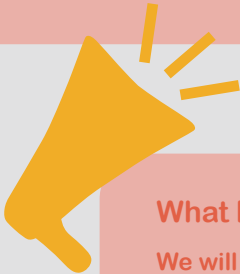

**Our aim?**

To make sure the support we offer meets the needs of young parents. We will listen to what is said and use this information to inform how and what we deliver for young parents. It is important that we provide services that are aimed at meeting your needs and ambitions.

## What to Expect?

You will come together with other young parents, via video call, and share opinions, ambitions, and barriers. This is completely voluntary; everyone can contribute at their own pace.

## What happens after the discussion?

We will look at everyone's input from the session and work to make any changes and improvements in the help and support we offer. We can't promise all suggestions given will be achievable, however we will do our best to take your ideas forward.

## How Will You Know About Any Changes Made?

We aim to provide feedback to you by end October 2021 and will tell you if there are going to be any delays to this happening.
