

# **Our Right to Food: Affording to eat well in Scotland**

**Are you interested in the availability and price of fruit & veg in your community?**

## **Get involved in the Our Right to Food project!**

We have the vision that everyone in Scotland should be able to access and afford the food that keeps them healthy and well. But good food is not available everywhere and for many it is too expensive or hard to reach. This project explores the availability and price of fruit and vegetables in communities across Scotland.

We invite you to join the project as a Community Researcher to help us find out what fruit and veg is available in your local area, how much it costs, and what this means for your community and Scotland more widely.

Sign up [here](#) for one of our Introduction Workshops to learn more about the Our Right to Food project and how to get involved.
