Introduction

This document is to support individuals wishing to apply for Scotland's Mental Health First Aid (SMHFA) Training for Trainers Course

Background

The Scotland's Mental Health First Aid (SMHFA) Instructor Course is a comprehensive training program designed to prepare individuals to teach the SMHFA course. The instructor training spans five days and is divided into two main parts: the Development and the Skills Practice Days.

Before attending the instructor training, participants must complete the 12-hour SMHFA participant course within the 12 months prior.

The Development three days, focuses on deepening understanding of the course content, exploring group dynamics, and enhancing presentation skills. Participants engage in activities that cover for example, learning styles and workshops on mental health topics such as psychosis and recovery.

The final two days, known as the Skills Practice Days, involve participants leading a section of the course to their peers. This hands-on practice helps build confidence and refine teaching techniques, with feedback provided by mentors and fellow participants.

Application Form

The application form you will be required to complete is a standard SMHFA application which sits on a Public Health Scotland trainer online system.

All application forms must be completed online via the specific "Apply Here" that will have already been received by any applicant.

All sections of the application form must be completed and within the set deadline for submission.
